Allowable Subject Matter

Claims 1-3 are allowed.

The following is an examiner's statement of reasons for allowance: All of the instant claims are allowable over the cited prior art at least because as stated in the applicant's response, filed on 3/9/2007, none of the cited prior art shows or fairly suggests location of the heat exchanger directly below the annular flange, rather than as shown by the closest prior art below, but displaced inwardly from the annular flange, where the instantly recited heat exchanger placement allows for greater cooling and operation efficiencies as well as a less complicated gas direction arrangement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
